Clip This Out May Come Handy

Tells how to take soreness from a corn and lift it right out.

Hospital records show that every time you cut a corn you invite lock-jaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freestone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of this on a tender, aching corn and the soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.—Adv.

James, law, '97; Percy G. McGee, law, '97; Dr. Joseph S. Wall, med., '97; Conrad Reid, arts, '92; George E. Sullivan, law, '92; Frank Roach, arts, '97; George A. How Russian Revolt Will Help Allies Win the War

The crucible of war has produced the Russian revolution, and others are apparently expected by observers who note that the peoples of all the belligerent nations are taking stock of their rulers with a clear-eyed vision induced by the stern reality of suffering and death.

"The Russian people," says *Russkoye Slovo* (New York), "are opposed to war and to militarism, but they believe that their own success as revolutionists will mean revolution on the part of the Germanic peoples. Then they hope and believe there will come a consolidation of all the revolutionary peoples, Russian and Germanic, a combination that by its very force and weight will compel the militarists of Europe's warring nations to cease their strife. And so, out of revolution will come the great peace."

You should read THE LITERARY DIGEST for March 24th to form an accurate opinion of the cause and result of the Russian Revolution, and the effect it will have in deciding the fortunes of war for the Entente Allies.

What Is Good for the Child Should Be Good for the Parent

In educating our children we do not follow the policy of insisting that they shall confine themselves to a narrow and one-sided view of things. Rather do we insist that their training shall be broad and comprehensive and that they shall be told what all thinkers, and not merely a certain group of thinkers, have to say on a given subject. We all recognize this as a sound policy in matters educational, yet how many of us follow it in relation to our personal thinking on the great ques-

tions of the day? Very few, if the truth be told. To the man or woman who wishes to see both sides, to get an intelligent view of life and all its interests, at home and abroad, THE LITERARY DIGEST offers each week an intensely interesting and wholly impartial summary of all that is going on in politics, art, science, religion, finance, etc., leaving you to form your own conclusions from its unbiased presentation of the facts. Read it and think along broad lines for yourself.
